30200

Multi Ratio Gear Oil Pump

The 30200 is a multi ratio gear oil pump with an adjustable length lever handle that increases pressure on the down stroke making viscous gear oils easy to pump in warm and cold weather. Four settings deliver from 220mls per stroke at 1.5:1 for SAE 80W90 gear oils down to 100mls per stroke at 6.9:1 for SAE 250 gear oils. Pump includes adjustable suction spear for 60-205L drums. metal bung adaptor, 2m delivery hose and end of hose ball cock with a convenient hooked extension.
